

## **Polymer Clay Coasters**

### **Supplies needed:**

- Clay in your favorite colors \*I use 5 packs for a set of coasters
  - Round cookie cutter
  - Rolling pin
  - Parchment paper + a baking sheet
  - Cutting board
  - Wipes for your hands
- \*optional: clear nail polish to varnish, gold acrylic paint for the outside edges for some shine

### **Steps:**

1. Roll your clay into several “snake” like shapes
2. Twist colors together
3. Flatten with your rolling pin, until you get your desired marbled effect
4. Use a cookie cutter, press into clay + then remove excess clay
5. Place on parchment paper + place on baking sheet

**How to Bake Your Clay:** You can bake your polymer clay items on a tray covered with Aluminum Foil or Parchment Paper, either in the toaster oven or the regular oven.

**Temperature & Time:** Use the Bake setting at 275 degrees and bake for approximately 20-25 minutes. You can flip it to the other side after 10 minutes if you'd like.

**After Baking:** Let cool for 24 hours before touching, or before placing any items on top of your coasters.

**\*Optional:** clear nail polish to varnish, gold acrylic paint for the outside edges for some shine.
