

# *Tall Tales & Blue Whales*

## *Craft Instructions and Materials*

### ***Materials:***

- Construction paper (preferably lighter color)
- Print out of whale (template below)... or one you can choose on your own!
- Scissors
- Pencil
- Marker (color of your choice!)
- Three colors of paint (your choice)
- Containers for paint
- Plenty of Q-tips!
- Smock or messy clothes!

### ***Instructions:***

1. Using scissors carefully, cut out the whale template below along the black line
2. Place the cut out whale on the construction paper and trace the image of the whale on to the construction paper with the pencil
3. Carefully outline the pencil with a washable marker (so you can see the outline better!)
4. Using the paint colors you have chosen, lightly dip the Q tip in and start to create your “dotted design” around the whale outline.
5. Be sure to create a nice pattern of colors around your whale using the three paint colors
6. Have fun!
